CONFERENCE THEMES

Engineering and Technologies

Sciences and General Studies

Humanities and Education

Management and Business Administration

Message from Organising Secretary

On behalf of the organising committee, I would like to cordially welcome you all to International Conference on Management, Engineering, Sciences and Humanities 2025 (MESH – 2025) with all the interdisciplinary themes Engineering & Technologies, Sciences & General Studies, Humanities & Education, Management & Business Administration. Organising committee has been working very hard and arrangements are well under way to ensure that the MESH – 2025 conference is a resounding success. Eminent keynote and plenary speakers are going to present their view in different perspectives. I hope that the Conference Proceedings will serve as a comprehensive compilation of the present knowledge and experience and will be used widely by engineers and designers who are concerned with the subjects. The success of the conference depends ultimately on the many people who have worked with us in planning and organising this technical program. The organising committee has left no stone unturned to ensure that the conference turns out to be an occasion from which all of you carry back long lasting memories of not just scientific excellence but also warm hospitality.

I invite all of you (academician/researchers/industry professionals/ students) working in the research fields related to Management, Engineering, Sciences and Humanities to participate and attend the event and make it a grand success. I look forward to welcome you in Bangkok, Thailand in March 2025.

Regards

**Dr. Vishal Vasistha PhD
